A LETTER FROM OUR 2023 YOUTHCON SCHOLARSHIP TEAM

Dear Potential YouthCon Sponsor and Supporter,

We often encourage young professionals to dream big. But what about fueling and transforming those dreams into reality? This year's scholarship theme, Igniting the Spark, allows high school students in the Washington, D.C. Metropolitan Area to enact lasting change in their communities. We invite you to be a part of our annual flagship program through our 16th YouthCon Scholarship, hosted by AASuccess.

Over the years, our student-organized scholarship has allowed high school students to act on their ideas. This year, the first-place winner will execute his or her idea through a seven-week internship with AASuccess, as well as receive a \$3,000 cash prize.

Our theme, Igniting the Spark, is meant to create a spark of aspiration to leave an impact on the community around you. For our applicants this year, this theme means creating a project that will not only provide benefits in the short-term, but will also be a sustainable source for change within a community.

Aspiration can come in many forms, in both tangible and emotional ways. Some projects may be able to remain viable in a community long after its duration, continuously providing resources and aid to those

who need it. On the other hand, an aspiration can also be a thought or a feeling that has been instilled in the people affected by the project. Inspiring others to take action against a local issue by leading as an example can also be a type of inspiration.

When students are provided with the right skills and encouragement, they're able to turn their ideas into accomplishments. Many students have solutions for pressing community issues, but lack the proper resources to carry them out. Despite these trying times caused by the COVID-19 pandemic aftermath and other social economic reasons, we are continuing to provide young individuals the opportunity to lead as an example and inspire a ripple effect of change in their neighborhood. Now more than ever, by contributing to the YouthCon Scholarship, you support a student's efforts towards building a stronger community.

We give our applicants a platform to turn their amazing ideas into reality, while fostering ethical and humanitarian values among the youth. Together, we can empower students to be compassionate and courageous leaders who can create lasting impacts.

WHAT YOUNG PEOPLE CAN DO

Host STEM workshops to students as young as 5 - 8 to inspire their curiosity and aspiration on STEM-relation subjects

Build simple yet effective computer science kits and education materials, and donate to schools in Kenya

Organize a mental wellness conference to bring both understanding and awareness to teen mental health

Motivate people to repurpose plastic and other recyclable materials by educating them on eco-bricks and crocheting using plarn

Create a robotics introduction-application program that actively involves and excites underrepresented students within homeless shelters

Fundraise in-kind and financial donations to provide school supplies to children in rural areas of Vietnam
